CHECKLIST

Fire door painting checklist

- [ ] Check the certification label for any restrictions on finishes
- [ ] Mask intumescent strips with low-tack tape before painting
- [ ] Sand the existing finish lightly and wipe away dust
- [ ] Remove handles and hardware to avoid paint build-up
- [ ] Let each coat dry fully and sand lightly between coats
- [ ] Test the door closes under its own weight once dry
- [ ] Plane the closing edge if paint has caused binding
