CHECKLIST

Fire door handle selection checklist

- [ ] Confirm the fire rating marked on your door edge
- [ ] Identify the latch backset and type currently fitted
- [ ] Verify the certificate names your door rating and closer type
- [ ] Check handles on escape routes open without a key from inside
- [ ] Use only the fixings supplied with the certified handle
- [ ] Record installation details in your fire door maintenance log
- [ ] Inspect handles every six months for wear or damage
